EFFICIENT, DURABLE, STORAGE SOLUTIONS FOR EVERY SPACE

Available in two versatile
sizes and two strong
construction options:

Wood & Steel Frame

Whether you need a small shed for tools or a larger space for equipment, our storage sheds, small office or recreational room offer the perfect solution. Available in two convenient sizes (3m x 2.6m and 6m x 2.6m), you can choose between traditional wood frame or modern Light Frame Steel for a construction method that meets your specific needs..

Key Features:

Two Size Options:

- 3m x 2.6m for compact storage
- 6m x 2.6m for larger items or more storage space

Flexible Construction Options:

- Wood frames for classic design
- Light Frame Steel for superior strength and longevity

Low-Maintenance Cladding:

- Exterior cladding that requires minimal upkeep, ensuring your shed looks great for years.

(7.8 m²)

3m or 6mx2.6x2.6 m

(15.6 m²)

3m or 6mx2.6x2.6 m

Your Ultimate Multi-Use Haven—Storage, Workspace, and More, All in One!"

" WHAT AM I ?

A space to keep seasonal items, tools, and essentials organized and accessible.

Storage Unit: A space to keep seasonal items, tools, and essentials organized and accessible.

Bicycle Shed: A secure area to protect and store your bikes, keeping them safe and ready for use.

Garden Shed: A dedicated spot for gardening tools, pots, and supplies, making gardening tasks easier.

Home Office: A quiet, organized workspace for work or study, with room for a desk and chair.

Motorcycle Garage: A secure space to protect your motorcycle from the elements and theft, with room for maintenance.

Whether you're organizing tools or creating extra storage for seasonal items, both shed sizes offer flexibility and practical spacemanagement for your property.

Benefits of Construction Methods

Wood or Light Frame Steel? The Choice is Yours

Comparison Table:

Feature	Wood Construction	Light Frame Steel Construction
Aesthetic Appeal	Traditional, natural look that blends with landscapes	Sleek, modern design for a contemporary look
Durability	Proven strength, ideal for moderate climates	Superior resistance to weather and pests
Maintenance	Requires periodic upkeep (painting, sealing)	Low maintenance, minimal upkeep required
Eco-Friendliness	Natural material, can be sustainably sourced	Recyclable, reducing long-term environmental impact
Assembly Speed	Longer build time but allows on-site modifications	Faster assembly with pre-engineered components

YOUR RELIABLE STORAGE SOLUTION IS

Just a Click Away!

Whether you need a small, practical shed or a larger, versatile storage space, our options in wood or Light Frame Steel provide durability, flexibility, and long-lasting performance.

Get in touch with us today to discuss your storage needs and find the perfect shed size and construction method for your property.
